SUMMARY

Third-year BE Information Technology student with strong foundations in programming, web development, and machine learning. Proficient in DSA, Python, C/C++, JavaScript, React.js, Node.js, and database systems.

Actively participates in hackathons and was selected as a Finalist at Mastercard Code for Change 2.0 and Odoo x SNS Coimbatore Hackathon 2026.

Practices algorithmic problem solving on LeetCode and has foundational exposure to Generative AI and prompt engineering workflows.

EDUCATION

Pune Institute of Computer Technology (PICT)

B.E. Information Technology

Pune, Maharashtra

2023–2027 — CGPA: 8.8

Bharat Bharti College

HSC

Parbhani, Maharashtra

2023 — 81%

Oasis' English School

SSC

Parbhani, Maharashtra

2021 — 100%

PROJECTS

Subscription Management System | *Odoo x SNS Hackathon 2026, ERP System Design*

- Built a centralized subscription lifecycle platform managing products, recurring plans, subscriptions, invoices, taxes, discounts, and payments.
- Implemented role-based access control (Admin, Internal User, Portal User) with secure authentication and validation rules.
- Designed recurring billing automation, lifecycle states (Draft → Active → Closed), and auto invoice generation with payment tracking.
- Developed tax and discount rule engines and reporting dashboards for revenue, active subscriptions, and overdue invoices.
- Selected as Finalist; underwent multiple technical review rounds evaluating architecture, database schema, and scalability.

Career-Tracking Platform for Y4D (Hackathon Project) | *Mastercard Code for Change 2.0, Team Project*

- Developed a career-tracking platform for NGO Y4D to monitor alumni career progress.
- Implemented dashboards, alumni engagement tools, and AI-powered recommendations.
- Collaborated with a team of 8 to deliver a working prototype in 12 hours.
- Future scope: integration with job portals, AI role recommendation, scalable alumni tracking.

GlobeTrotter — Personalized Travel Planning Platform | *React, Node.js, MySQL, Hackathon*

- Built a full-stack platform for multi-city itinerary planning with budgets, timelines, and interactive views.
- Implemented city/activity search, cost breakdowns, calendar-based visualization, and public sharing.
- Designed a normalized MySQL schema for scalable trip, activity, and expense management.

SkillSprint — Career Acceleration SaaS | *React, Node.js, PostgreSQL, Prisma*

- Developed a full-stack SaaS that converts career goals into structured sprints and tasks.
- Built Kanban boards, real-time progress tracking, and analytics for job readiness and productivity.
- Implemented secure authentication, public portfolios, and scalable relational data models.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript
Frameworks / Tools: React.js, Node.js, Firebase, Git
Databases: MySQL, MongoDB
Cloud: AWS (EC2, S3, IAM – Fundamentals)

AI / GenAI: Prompt Engineering, LLM interaction, RAG (foundational)
Core CS: Data Structures & Algorithms, OOP, Real-time Systems
Soft Skills: Communication, Problem Solving, Time Management

PROBLEM SOLVING & LEETCODE

Solved 200+ Data Structures and Algorithms problems on LeetCode using C++.

Strong understanding of arrays, strings, hashing, recursion, and basic dynamic programming.

CERTIFICATIONS

AWS Cloud Fundamentals Bootcamp

- Completed cloud fundamentals training via AWS Cloud Club at PICT.
- Hands-on exposure to EC2, S3, IAM, cloud security basics, and deployment concepts.

AR/VR Bootcamp — Unity & Vuforia (2025)

- Completed a 3-day immersive bootcamp organized by PICT IT Department in collaboration with CDAC Pune.
- Worked with Image Target, Multi-Image Target, and Ground Plane technologies.

LEADERSHIP & ACTIVITIES

Participated in technical workshops and college hackathons.

Finalist at Odoo x SNS Coimbatore Hackathon '26

Finalist at Mastercard Code for Change 2.0 (2025) Hackathon.
